The VAM 44 Discovery Coin!

In 1963, a young Berkeley engineering student encountered a revolutionary booklet, entitled *Morgan Dollar Varieties* by F.X. Klaes. In this small volume, a previously unknown 7/8TF "Doubled Leaves" variety was among the coins featured. And the rest is history!

The student was none other than Leroy Van Allen.
And the coin? It was the first VAM 44, the "King of VAMs."

And naturally, IT'S IN AN ICG HOLDER!

Healthy Market Docks At Long Beach Walkers & $50 Pan-Pacs Take Top Honors

Dealers remain optimistic about the market as they head towards California for a number of public auctions along with the major Long Beach Expo. Dealers that we talk to have told us that the market continues to be "pretty healthy." Several auction companies are conducting sales that will hopefully satisfy some of tough want list needs that dealers are still trying to fill. Bidding at these sales is expected to be aggressive because most dealers are trying to buy fresh material and they know that auctions are usually an excellent source for those coins. The September 18-21 Long Beach Expo should provide dealers with an excellent venue to conclude the week profitably. While dealers are happy with the activity and direction of the market, they are also aware that select areas are performing a bit better than others. For example, Proof Singles are not realizing demand as strong as that seen for several other areas. Dealers do say that Commems are trading but without the robust demand that usually occurs when they're hot. Areas of the market that dealers believe are receiving exceptional demand include: better date $20 Saint-Gaudens, early Type, better date Morgan Dollars and Proof Gold. These four areas are similar in that it takes a lot of money to participate in them. However that's not a problem. Today's market has real buyers with big money available for the higher ticket items. Dealers still remember the days when they sold coins of this caliber only to see them reappear at a show or auction several months later. This is **not** happening today. Dealers are selling a lot of coins that are just simply going away. This consumption of rare coins is adding fuel to the fire of the current bull market for collectible coins. This strong demand has been chasing the better dates of many series throughout the year. Key and semi-key dates have been the target of strong Bidding and it is getting more difficult for dealers to locate examples missing from their customer's collection.

This week's sight-unseen Bidding has been especially selective. Still, we see that a large number of supporting Bids have combined with several higher Bids to indicate a continued strong and healthy sight-unseen market. Late Date Walking Liberty Half Dollars are taking the lead this week with plus signs appearing for nearly every date from 1941-1947-D in MS65 thru MS67. Both NGC and PCGS examples are being sought-after. The Morgan Dollar series remains popular with dealers willing to spread their support for many dates both common and rare. Dealers are increasing their Bids on a regular basis trying to capture select key and semi-key dates with increases appearing for several dates in various grades. However at the same time we see increases occurring for common dates as well. Morgans demonstrate how broad the demand is by giving further evidence to the notion that the collector base is expanding. Do take note that Bid for common date Morgan Dollars in MS64 and MS65 is now $40 and $80 respectively for both NGC and PCGS. Increases have been seen in the past several months for the Round $50 Pan-Pac Gold Commem. This week's increase follows last week's gain and still the demand remains unsatisfied. Maybe the present increase will finally force some NGC or PCGS examples on the market. Obviously buyers are patiently waiting; keep in mind that this is a five-figure rare coin. Select Mint Gold Type is moving higher. The recent jump in Gold Spot to the $380 per ounce level has brought out more buyers. Mint State and Proof Type is solid although a few declines have taken place from dealer discounting, perhaps to provide some extra funds to buy at the upcoming auctions and Expo. Discounting is also seen among select Proof Singles. This area of the market remains a bit weak.

The September Sale held in New York on the 9th by Stack's realized more than $2.3 million. Most of the coins in the sale were raw however we did find a few certified highlights.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Some bids within represent very conservative sight–unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PROOFLIKE MORGAN DOLLARS

P L Dollars may be semi-reflective with less reflectivity than the deep-mirror type. Bids for P L s are usually much lower than for DMPL s but command some premium over non-P L strikes.

Garrett&Hamrick VENTURES

Garrett & Hamrick Ventures wants to purchase your rare coins. Recently, Jeff Garrett and John Hamrick formed a joint venture to assist a multi-million dollar rare coin fund in locating and purchasing individual rare coins, large collections, and hoards. At Garrett & Hamrick Ventures we understand what a difficult decision selling your rare coin(s) is. It seems as though everyone is promising to pay you the most, but it is hard to determine your best option. Today's rare coin market is very complex and getting the highest prices for your coins requires someone who can assist you with research, grading, and pricing. It is for this reason that Knowledge is the foundation of our approach to buying rare coins.

Jeff Garrett is the co-author of Significant Auction Records of United States Coins (a mammoth 3 volume reference work) and 100 Greatest United States Coins. Jeff Garrett was also one of the original coin graders for Professional Coin Grading Service.

John Hamrick was the founder of World-Wide Coin Investments, Ltd, which was one of the first publicly traded rare coin companies in the nation. He has bought and sold most of the classic U.S. Coin rarities such as the 1804 Bust Dollar, 1894-S Barber Dime and the 1913 Liberty Nickel. In addition John Hamrick has been one of the country's leading rare coin retailers for over 30 years and is constantly in touch with today's ever-changing market conditions and prices. Together Garrett and Hamrick have handled nearly every United States coin listed in the Redbook!

If you have coins to sell we will do everything in our power to make sure you receive top dollar for your numismatic items.

Call today to participate in the hottest rare coin market in years!!!

WE OFFER THE FOLLOWING SERVICES:

Long Beach Expo Upbeat & Active
Two Auctions Realize Nearly $10 Million

The Long Beach Expo is underway with activity that's very evident of a bullish market, as seen during dealer set-up. Most dealers that we spoke with are aggressively looking to buy coins while anticipating an excellent show. The need for coins is great because the demand is so strong. An expanding customer base continues to push the market to higher ground as new blood begins their journey in the hobby. In many cases, dealers are willing to pay **Ask levels** for coins that are attractive for the grade or ones that are on their want lists. Unfortunately, a lot of these purchases won't even make it home because they have already been resold on the bourse for a profit. New purchases that usually are set aside to take home become fair game for resale in this kind of atmosphere. Bottom line: the market is really strong and dealers remain optimistic. This optimism is readily seen by all the smiles and carefree attitudes of dealers on the bourse. You just don't see the stress and pressure on their faces that's usually evident at the beginning of most shows. Dealers believe that they will have an excellent show and so they are better able to enjoy themselves, while renewing acquaintances at the same time they are conducting business. Select areas of the market continue to do well. One dealer told us the GSA Carson City Dollars graded and certified are extremely strong. The demand for MS65 examples is very evident for all "CC" dates. Another said that attractive Type and rare date Gold is realizing strong demand. We are also told that key dates are continually pursued because want lists need to be filled. Dealers are trying to buy the keys at Long Beach but when these coins are found, they need to be prepared to pay strong money.

This week's **sight-unseen** market is also great. Strong demand is forcing dealers to increase Bid once again in an effort to secure coins. This has been the pattern over recent months and this pattern continues to hold. Walking Liberty Half Dollars are doing exceptionally well. Increases are seen for 1919 - 1921-S issues in MS62 thru MS65. These four- and five-figure rare coins are another indication that serious money is chasing coins. We even see the usually quiet Mercury Dime series attracting Bidders. Increases are taking place for select MS66FB and MS67FB dates in the middle of the series. Morgan Dollars also continue to receive their fair share of higher Bids. A strong collector base exists for Morgans, and consequently plus signs are occurring for material from common to rare. Peace Dollars are also on the move. MS65 common dates are now Bid $70 sight-unseen for NGC or PCGS examples. A few of the key dates are also increasing nicely. Type is solid with supporting Bids omnipresent. Gold Type is benefiting from increased Bids for $5, $10 and $20 Liberties. Saints also continue to do well in select grades. Gold Commems are receiving plus signs for select MS65 and MS66 issues. Both $50 Panama-Pacific examples are higher in MS61 thru MS64 as well. Silver Commems are receiving a few plus signs here and there, but remain mixed to slightly lower overall. Weakness continues to be evident among Proof Walker singles.

Two southern California Pre-Long Beach auctions realized prices above their expectations. Superior Galleries Pre-Long Beach Elite Coin Auction realized $6.24 million September 14-16. Also, the September 15-17 Pre-Long Beach Auction conducted by Ira & Larry Goldberg C&C claimed $3.4 million. We listed a few of the many certified highlights from each sale.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity [illegible] nationally reported sight unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks/Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the [illegible] of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels. www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

HOW TO MAKE MONEY IN COINS RIGHT NOW, 2nd EDITION

by SCOTT A. TRAVERS

"Don't go to a coin dealer without reading this book first."
– Hank Gilman, Business Editor, ***NEWSWEEK***

"If making money by buying and selling coins is your game, Scott Travers' ***How to Make Money in Coins Right Now*** is a must-read. As an insider, he puts you on the playing field with the pros. Chapter by chapter, he reveals strategies for being a winner."
– Beth Deisher, Editor, ***Coin World***

"The most valuable book ever written on how to profit from coins."
– Ed Reiter, Senior Editor, ***COINage*** magazine

"A revolutionary book."
– Armen R. Vartian, Legal Counsel, **Professional Numismatists Guild**

"A no-holds barred examination of insider secrets that can be used for startling, quick profits. Stands alone as the most penetrating guide of its kind ever published."
– Maurice Rosen, **Rosen Numismatic Advisory**

Ultimate insider Scott Travers shows you the tricks of the trade with clear examples of how you, too, can outsmart the grading services. You'll get information never revealed before from experts who have handled hundreds of millions of dollars worth of rare coins. Here are just some of the many topics covered:

Garrett&Hamrick VENTURES

Garrett & Hamrick Ventures wants to purchase your rare coins. Recently, Jeff Garrett and John Hamrick formed a joint venture to assist a multi-million dollar rare coin fund in locating and purchasing individual rare coins, large collections, and hoards. At Garrett & Hamrick Ventures we understand what a difficult decision selling your rare coin(s) is. It seems as though everyone is promising to pay you the most, but it is hard to determine your best option. Today's rare coin market is very complex and getting the highest prices for your coins requires someone who can assist you with research, grading, and pricing. It is for this reason that Knowledge is the foundation of our approach to buying rare coins.

Jeff Garrett is the co-author of Significant Auction Records of United States Coins (a mammoth 3 volume reference work) and 100 Greatest United States Coins. Jeff Garrett was also one of the original coin graders for Professional Coin Grading Service.
John Hamrick was the founder of World-Wide Coin Investments, Ltd, which was one of the first publicly traded rare coin companies in the nation. He has bought and sold most of the classic U.S. Coin rarities such as the 1804 Bust Dollar, 1894-S Barber Dime and the 1913 Liberty Nickel. In addition John Hamrick has been one of the country's leading rare coin retailers for over 30 years and is constantly in touch with today's ever-changing market conditions and prices. Together Garrett and Hamrick have handled nearly every United States coin listed in the Redbook!

If you have coins to sell we will do everything in our power to make sure you receive top dollar for your numismatic items.

Call today to participate in the hottest rare coin market in years!!!

Vol. XVIII No. 39 September 26, 2003 Single copy price $4.00

Strong Demand Targets Gold Early Walkers Move Higher

Right at the outset you could tell that dealers at the Long Beach Expo were pleased with the rare coin market. The Expo concluded with a wave of more than 7,000 people in attendance for the September 18-21 show in California. The final major coin show of summer was certainly upbeat. Optimism was widespread as most of the dealers that we spoke with touted what a wonderful show they had. Activity, dealer-to-dealer, was spirited, with many dealers selling nice coins and looking for Ask money. Yes, more often than not we witnessed dealers completing transactions at Ask levels for nice material. It was also obvious that many coin dealers came to the show looking to buy coins. Inventories remain seriously depleted not to mention a lingering number of want list coins that dealers need to locate for good customers. Many dealers will also use this time of year to clear out some coins that have become stagnant. Dealers are always trying to freshen their stock so that their regular customers have something new and interesting to consider.

Gold is always an important factor when it comes to evaluating the rare coin market. The Gold spot market has certainly been strong this year. Strong prices for Gold and Silver provide a boost to the market as more people look to diversify their personal financial portfolios. Many of these people, unfamiliar with rare coins, are not even sure what Gold coins they ought to buy or how to begin. A lot of them wind up buying American Eagle and other bullion related Gold. However, a percentage always look to buy $20 Saint-Gaudens and/or $20 Liberties as well as other Gold denominations. We know that Gold plays a serious role in a dealer's inventory and business considerations. One dealer sees two targets and thinking patterns in the demand for Gold coins. One group believes that common date $20 Saints in MS64 and better are an excellent value. Prices for these coins have been increasing but dealers have had a difficult time when it comes to buying these coins as the Asking price is rather stiff. Buying quantities of this material at reasonable levels is very difficult. Secondly, there is the group that believes the bottom level Gold from Extremely Fine thru MS63 is the way to go. These buyers believe that spot Gold is headed higher and they will benefit from today's purchases. Dealers are not so quick to inventory quantities of either of the two segments of this Gold. Some have suggested that their concern lies with the volatility of the Gold market. This could put them in precarious situation. It takes a lot of money to buy quantities of Gold coins, money that could be spent in other areas. The risk/reward factor is being considered carefully. They may be more interested in spending their money on other parts of the coin market, especially because the other segments are equally strong and don't face the same volatility issue as Gold. Prudent decisions make for a successful coin business.

Sight-unseen Bid increases are seen this week for $20 Saints and Libs in grades MS61 thru MS64 and also Saints is MS65. (See the chart at right for the leading 20 percentage increases of Gold Type coins since January 3, 2003) The overall sight-unseen market is solid to higher this week. Walking Liberty Half Dollars are following the gains seen in the sight-seen market. Increases are evident for early Walkers for both NGC and PCGS examples. Current demand is so strong that dealers are finding it difficult to fill orders, despite the increased Bids. However, serious money is available for tough key and semi-key Walkers. Panama-Pacific $50 Round and Octagonal Commems continue to increase. The giant Gold Commems are still needed and dealers have little choice but to raise Bid in an effort to buy some for their customers. Proof Gobrecht Dollars are higher as well. Five-figure $50 Pan-Pacs and Gobrecht Dollars are not for the meager buyer but rather, the serious collector/investor. Bid has also increased for a couple of key dates: 1918/17-D Buffalo Nickels and 1892-S Morgan Dollars. Increases are also targeting early Proof Lincoln Cents, especially those in Proof 66 Red and better.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels. *www.cdnpublications.com*

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" Lowest asking price during the *w*eek prior to publication (week old); "**m**" - Lowest asking price during the previous three weeks (*m*onth old); "**t**" *T*rade during the most recent month; "**lm**" Lowest asking price appearing *l*ast *m*onth, "**lt**" *T*rade appearing *l*ast month; "**ot**" *T*rade older than 2 months; " " a blank, for all Market prices older than two months; "**a**" for auction transactions· "**oa**" auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MINT STATE TYPE COINS

Prices are for the most common dates. Better date coins usually bring more than the bids of the most common issues listed herein. Bids listed for issues that trade infrequently are the last known.

3 MORE REASONS WHY NGC IS THE UNDISPUTED LEADER IN THE COIN GRADING INDUSTRY

The Certified Coin Registry

The Registry offers a dynamic system for collectors to enjoy friendly competition while assembling remarkable collections. The Registry's fair, expert and numismatically accurate ranking system is truly unique. It accounts for several important factors including grade, rarity, population and the NGC "star" designation for exceptional eye appeal. Accepting coins from the two relevant grading services NGC and PCGS, the Certified Coin Registry is the most inclusive program of its kind. Visit **Collectors-Society.com** for more information.

CERTIFIED COIN DEALER *newsletter*

Sight-Unseen Bids Move Higher Volatility Can Prove Costly

October begins with many of the northern states experiencing cooler temperatures but that hasn't cooled the hot rare coin market. Interest in rare coins has been quite phenomenal this year and we have seen this strength being sustained throughout the period. Of course there have been areas of the market that have not performed as well as others, but all-in-all, dealers agree that things are great.

Dealers need to appreciate that this is an extremely active and volatile coin market. Consequently, they need to stay alert and do the best that they can to stay on top of the quickly, and sometimes dramatically changing Bid levels. They need to do this if they expect to maximize their profits from their trading activity. We are, once again, seeing far too many auction prices realizing levels that are **below** current sight-unseen Bid. In some cases, the dollar amount may be very small, but a few dollars here and there have a way of adding up by the end of the month. And these dollars are better off in your pocket than not. It is also important to keep in mind that small differences in Bid can mean a lot of money. This is especially true with generic coins that will often trade in quantity. However, there are many instances where we have seen an auction price realized way below the current sight-unseen Bid. Again it is important that you receive the most you can for your material, especially if you are selling at auction. A bull market is very good in a lot of respects but remember that Bid may be surprisingly different from the time you consigned till the time the auction takes place. You need to protect your investment, your client and/or your business by being ever vigilant. In one case, an NGC MS66 1900 Morgan Dollar sold at auction for only $275, despite there being a **sight-unseen** Bid at $350. In another case, A PCGS PR65 1883 3-Cent Nickel sold for $235 while Proof Type sight-unseen Bid was $335. Finally, an ICG MS66 1888 Morgan Dollar brought $285 against a sight-unseen Bid of $430. In each of these cases somebody obviously and unfortunately wasn't paying close enough attention. Remember, one's loss is another dealer's or collector/investor's gain.

Mint State Gold Type is continuing to receive the same strong demand that it experienced last week. Gold Spot is helping by providing a base of support by holding just above the $380 per ounce level. This allows more investors to consider numismatic Gold in addition to their bullion investments. However this week at least one buyer is primarily looking for NGC graded Gold. That's why you see a lot of plus signs on our NGC Type Gold chart. Demand is targeting grades MS62 thru MS65. You should especially notice the jump Bid to $1,100 each for NGC and PCGS $5 Indians in MS63. NGC Silver Commems are also enjoying a number of plus signs with MS64 thru MS66 being the grades of choice. We also note that minus signs are also popping up throughout the market as some coins are being discounted via auction and wholesale sales. Morgan and Peace Dollars remain strong with dealers trying to buy a number of better dates from each of these series. Note the strong demand for Morgan keys 1879-CC, 1889-CC, 1892-S and 1896-O. As you can also see GSA Dollars, graded or raw are continuing to receive heavy demand forcing prices ever higher. Select date and Type Bidding is also occurring this week. For example, PCGS MS65 Liberty Seated Dimes with Legend are needed by the dozen at $600. One dealer is trying to locate a 1919-D Buffalo Nickel in MS67 at $20,000 sight-unseen. Good luck, as none have been certified that we know of by NGC or PCGS. We see that 1916-D Mercury Dimes are up in select grades, but that's no surprise as demand remains strong for all key dates. Several tough early Walking Liberty Half Dollars are finding Bidders willing to pay higher levels for them. Many serious collectors are working on Walkers and these early dates are difficult to locate.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases a more accurate reflection of a coin's true value may be found in the CDN albeit on a sight basis.

Garrett & Hamrick Ventures wants to purchase your rare coins. Recently, Jeff Garrett and John Hamrick formed a joint venture to assist a multi-million dollar rare coin fund in locating and purchasing individual rare coins, large collections, and hoards. At Garrett & Hamrick Ventures we understand what a difficult decision selling your rare coin(s) is. It seems as though everyone is promising to pay you the most, but it is hard to determine your best option. Today's rare coin market is very complex and getting the highest prices for your coins requires someone who can assist you with research, grading, and pricing. It is for this reason that Knowledge is the foundation of our approach to buying rare coins.

Jeff Garrett is the co-author of Significant Auction Records of United States Coins (a mammoth 3 volume reference work) and 100 Greatest United States Coins. Jeff Garrett was also one of the original coin graders for Professional Coin Grading Service.
John Hamrick was the founder of World-Wide Coin Investments, Ltd, which was one of the first publicly traded rare coin companies in the nation. He has bought and sold most of the classic U.S. Coin rarities such as the 1804 Bust Dollar, 1894-S Barber Dime and the 1913 Liberty Nickel. In addition John Hamrick has been one of the country's leading rare coin retailers for over 30 years and is constantly in touch with today's ever-changing market conditions and prices. Together Garrett and Hamrick have handled nearly every United States coin listed in the Redbook!

If you have coins to sell we will do everything in our power to make sure you receive top dollar for your numismatic items.

Call today to participate in the hottest rare coin market in years!!!

Sight-Unseen Bids Chase Walkers & Keys Gold Type Remains Strong

The rare coin market continues to be very volatile as dealers shuffle their business ideas and want lists and express them as new sight-unseen Bids. Volatility has also been the norm for the precious metals. Sharp up and down moves in Gold and/or Silver can create problems for dealers. Some people that order Gold while Spot is strong may end up receiving the Gold after Spot has plunged. Sometimes these buyers look to renege on their purchase order and that can be a very disturbing and problematic occurrence for dealers. However, despite this extreme volatility in Gold of late, we see that the sight-unseen market for Mint State Gold Type remains vibrant and strong. We even find that dealers are willing to pay higher sight-unseen Bids for select Gold in quantity. These dealers need material and aren't concerned about quality, only the grade in the plastic. We see Bids for quantities of $20 Saint-Gaudens in MS65 at $1,000 per coin. Other Bids are looking for up to 10 $2.50 Indians in MS65 which accounts for the jump Bid of $3,000, demonstrating the strong demand in the market for Gold. Finally, we saw that up to five $3 Gold in NGC MS64 are needed sight-unseen at a very strong $4,750 per coin. Collector/investors are very much interested in participating in diversifying their portfolios with American Eagles and other bullion Gold and of course common date numismatic Gold in various denominations. Activity, though maybe not quite this dramatic, is expected to take place at the New Silver Dollar Show in St. Louis October 15-18. Many dealers will be in attendance at this important show.

Supporting Bids are cropping up in a big way throughout *the Bluesheet*. Don't get the wrong impression from the absence of plus signs in a few areas throughout this newsletter. Activity is taking place there too, and often at current levels. However, even more importantly, we are finding solid supporting Bids covering a wide range of dates, Types and grades. Proof Gold, Early Gold Type, early Walkers, Proof Type and Mint State Type for example, are the beneficiaries of this activity. Dealers are trying to buy these rather expensive coins for serious collector/investors. Remember, supporting Bids are just a step away from future increases. These are bullish signs for a market that continues to move forward in a year that has already been met with great success.

This week has a little bit of everything. Minus signs can be found in several areas of the market as dealers discount some material to make room and provide funds for other fresh material. Most of the dealers that we talk with continue to express optimistic views about the current market and its immediate future. This week's sight-unseen market is finding Bidders still willing to increase the ante for those coins that they absolutely need today. Walking Liberty Half Dollars take top honors with a myriad of plus signs found for NGC and PCGS examples from 1934 thru 1947-D. These Halves are needed in quality condition with demand chasing MS65 thru MS67 coins. Proof Walkers, found on our Proof Singles chart, are also participating in the demand. Silver Commemoratives are among their needs as well with plus signs appearing for several issues. Morgan Dollars remain, arguably, the most **in demand** series with plus signs repeatedly appearing for key and semi-key dates. Prooflike examples are also moving higher as well, reflecting strong increases among non prooflike dates throughout the month. Key date Peace Dollars are seen inching higher. Proof 3-Cent Silvers, Type III and Liberty Seated Half Dimes with legend are registering plus signs on our Proof Type chart. Proof Type is a popular collecting area for collectors and investors. Individuals appreciate owning these early designs in this fantastic state of preservation. Washington Quarters, especially key dates are higher this week as the number of Washington Quarter collectors continues to grow. Key dates continue to be highly sought-after by dealers. Many of their customers want these coins and are willing to pay strong money for them. Notice that the 1911-D $2.50 Indian is higher in several Mint State grades. This is the key to completing a set of this popular short series of Quarter Eagles.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity in listing the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels. www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

44-COIN HOT LIST ◆ 44-COIN BLACKLIST

Foreword by Q. David Bowers

"*Scott Travers' Top 88 Coins Over $100* is potentially enriching, educational and enlightening. It provides market-oriented information against a rich backdrop of the history and lore of coins. *Top 88* is far more than just an investment book - it's a landmark work that opens the world of coinage to the reader!

◆ **R.W. Julian**, numismatic researcher and scholar

"Read this book closely and you'll get a new perspective on what really counts when you buy and sell coins. Follow the recommendations embodied in these pages and you'll be well on the way to being a winner yourself!"

◆ from the introduction by **Ed Reiter**, former numismatics columnist, *The New York Times*

Buying and selling rare coins can be a hit-or-miss proposition - unless you get expert directions. This book by well-known New York City coin dealer Scott A. Travers, with a foreword by Q. David Bowers, is a perfect guide.

In *The Top 88*, Travers draws a road map detailing both the hits and the misses - the coins that in his opinion represent good value at current market levels and those in his opinion you should steer clear of. He identifies 44 winners and 44 losers, puts them in historical perspective and vividly describes why each could be your best or worst coin buy. The list runs the gamut from classic U.S. coinage of the nation's early years to such modern-day issues as the Susan B. Anthony dollar.

You'll learn that winners and losers can exist side by side within the very same series. And you'll see how a given coin can sometimes be a winner in one grade, or level of preservation, and yet be a loser in a grade just a little bit higher or lower.

This book, like a piano, provides you with 88 keys that will help you make beautiful music - only this time, according to Travers, you'll be singing all the way to the bank if you play the right "notes" in buying coins.

You'll learn about:

- The elements of value
- **Independent third-party grading**
- The age of type coins
- **Opinions relating to what coins are "losers"**
- A list of coins that are "winners"
- **Why every coin listed has something to like and something to dislike**
- One-year type coins
- **Generic Morgan dollars**
- Commemorative coins
- **Mint-error coins**
- Uncirculated late-date coins
- **Late-date proof sets from 1968 to date**
- Marketplace data and expert opinions on every listed coin
- **Meticulously researched historical information**

Got Spots?

Copper spots, carbon spots and other surface contaminants not only negatively affect eye appeal and marketability of coins, they can also become more severe over time.

NCS, the #1 authority in professional numismatic conservation, can remedy this problem while protecting the underlying original surfaces of the coin.

NCS has developed advanced techniques for addressing most forms of contamination without the use of abrasive, high risk, or potentially damaging methods.

Don't risk letting an unsightly spot turn into active corrosion or an improper effort to remove it result in a "problem coin".

Trust NCS to professionally conserve your coins and protect their original surfaces.

MS Saints & PR Gold Type Lead This Week NGC Reholders Multi-Coin Sets

Believe it or not we are already more than midway through October, and demand seen throughout the rare coin market remains mighty fine. Most all the dealers that we talk with on a regular basis continue to trumpet its praise. Business has been real good for many coin dealers with brisk sales and more than satisfactory traffic thru their stores. Each business has its own group of regular customers and they can be expected to buy the usual stuff. However, dealers are encouraged by the number of new faces that come in to browse and ask questions. A lot of these individuals end up interested in one aspect of numismatics or another and a new collector is born. We find that many people have their own reasons for entering the world of coins and one's own problems can sometimes be temporarily lessened from the enjoyment of collecting rare coins.

Anybody that thinks that this current bull market is too exaggerated would do well to examine the results from Part I of the John J. Ford, Jr. Collection that realized a whopping $5.6 million. It was standing room only at the October 14th New York City auction conducted by Stack's. Keep in mind that this portion of the sale only featured early American Colonial and State coinage. In St. Louis the Silver Dollar & Rare Coin Expo and Scotsman Auction are in progress. This kind of hectic activity means that dealers have to prioritize their time and travel to maximize their profits.

NGC certified coins can now be submitted for reholdering within the companies new multi-coin holders. For a fee NGC is offering over 550 variations of multi-coin set holders (2-6 coins) including: Small Cent Type; Nickel Type; 20th Century Dime, Quarter, Half and Dollar Types; Gold Type, Modern Commemoratives, Proof Sets; and Mint Sets. The initial response has been favorable.

This week's sight-unseen market remains active as it has for quite some time. NGC Proof Gold Type is receiving an unusually large number of higher Bids, albeit, most are minor increases. This segment of the market is extremely active. Dealers are looking to buy Proof Gold, not necessarily to fill orders but to add rarities that they believe are undervalued to their inventory. Of course, their customers will quickly be presented with an opportunity to buy one or two of these beauties. Increases are omnipresent for all denominations, Types and grades of Proof Gold. We see four-, five- and six-figure Bids chasing these rarities. This is another example that serious money is earmarked for rare coins. Other areas of the market that are also very active and in demand include: Copper, Nickel and Silver Type. This week, plus signs are to be found for both Proof and Mint State issues. The majority of the action and activity is centered with Mint State Type. We see dealers eagerly increasing their Bids for select issues. Early coinage continues to receive amazing demand. We see Bids increasing for several Types from Half Dimes thru Dollars in this category. Proof Type demand is strongest for Matte Proof Lincoln Cents. Quality examples are most sought-after with Proof 64 and above being targeted. Bidders are willing to take examples from Brown to Red, and all combinations in between. Mint State Gold Type is receiving strong Bids similar to what we saw last week. Dealers have yet to buy all that they need so they have supported the Bid in many cases and even increased it in others. One east coast Gold dealer that we spoke with said that he sees very strong demand for $2.50, $5, and $10 Liberty and Indian Gold in MS62 and MS63. Still, he is having a difficult time buying all the coins he needs. A lot of people know that the market is strong and so they price their coins accordingly. This makes it tougher for buyers and sometimes the wholesale price a dealer may charge another is higher than they planned on charging their own customer. You can also see that the $20 Saint-Gaudens chart is quite active for NGC and PCGS. Quantities of MS65 generic Saints have traded sight-unseen this week for $1,030 each. In some cases, jump Bids are taking place for high-priced rarities. Dealers are boldly Bidding because they have buyers with serious money waiting for these scarce dates. Check out the 1931-D for example.

Garrett&Hamrick VENTURES

Garrett & Hamrick Ventures wants to purchase your rare coins. Recently, Jeff Garrett and John Hamrick formed a joint venture to assist a multi-million dollar rare coin fund in locating and purchasing individual rare coins, large collections, and hoards. At Garrett & Hamrick Ventures we understand what a difficult decision selling your rare coin(s) is. It seems as though everyone is promising to pay you the most, but it is hard to determine your best option. Today's rare coin market is very complex and getting the highest prices for your coins requires someone who can assist you with research, grading, and pricing. It is for this reason that Knowledge is the foundation of our approach to buying rare coins.

Jeff Garrett is the co-author of Significant Auction Records of United States Coins (a mammoth 3 volume reference work) and 100 Greatest United States Coins. Jeff Garrett was also one of the original coin graders for Professional Coin Grading Service. John Hamrick was the founder of World-Wide Coin Investments, Ltd, which was one of the first publicly traded rare coin companies in the nation. He has bought and sold most of the classic U.S. Coin rarities such as the 1804 Bust Dollar, 1894-S Barber Dime and the 1913 Liberty Nickel. In addition John Hamrick has been one of the country's leading rare coin retailers for over 30 years and is constantly in touch with today's ever-changing market conditions and prices. Together Garrett and Hamrick have handled nearly every United States coin listed in the Redbook!

CERTIFIED COIN DEALER newsletter

*CCDN — a weekly report on the **Sight-Unseen** certified market published by the Coin Dealer Newsletter (est. 1963)*

Vol. XVIII No. 43 October 24, 2003 Single copy price $4.00

Sight-Unseen Market Active & Higher Dollars And Gold Gain Momentum

The October coin market is maintaining its hectic pace with shows and auctions dominating the numismatic landscape. Dealers are extremely satisfied with the market and its future prospects. They say that demand is still exceptional with people willing to step out and pay strong money for select rarities. Examples of this activity were seen in St. Louis. The Silver Dollar Rare Coin Expo held October 15-18 has concluded with some surprises. Several dealers felt that the show was a bit slow from a retail point of view. They had hoped that more public traffic would be there but those few collectors that did attend were very serious about doing business. Coins were certainly trading. That's why dealers that we spoke with were pleasantly surprised with the wholesale business taking place on the bourse. One dealer said that, "I was able to buy some good coins at St. Louis but I had to pay big money for them." We have had several dealers tell us that Gold was very strong at the show. They said that **rare date** Gold is especially hot at the present time. Basically, there is not enough dated Gold available to meet demand. One rare date Gold expert said that if you have a nice rare date Gold coin that is priced fairly then it will sell rather quickly. In one case, a dealer bought an NGC AU58 1874-CC $5 Liberty that is among the finest known for a sum in the high teens. He said that the strongest demand is presently targeting $3 Gold, Type I $20 Liberties and Charlotte and Dahlonega Mint Gold under $10,000. Of course, anything in rare Gold that is the first year of issue or a single year Type is attractive to today's buyers. Collecting Gold by date has become very expensive, so many collectors are building sets by Type. Some will put together Charlotte or Dahlonega minted Gold by Type, for example. Buyers are willing to settle for a smaller number of coins as long as they are Choice for the date.

This week's sight-unseen market is continuing along the same line as last week's with Gold being very much in demand. Of course, Spot increasing sharply during the week has helped generate added interest. As of this writing, Spot is trading near $385 per ounce with many analysts agreeing that it may be poised to approach the $400 per ounce level. Dealers say that as Gold increases, many thousands of people become more aware of it. They say that while the majority of them will buy common date and bullion related coins, a small percentage will go on to become interested in buying rare date Gold. This may not happen immediately, but it sometimes does somewhere down the line. As you can see by our Mint State Gold chart this week, Type I, II and III Gold Dollars are receiving Bid increases. Also, don't miss the increases for Type II and Type III $20 Liberty Proof Gold. Dealers tell us that the supply of Proof Gold has dried up and is currently in strong hands. Consequently, increases in our Proof Gold columns are of no surprise. Again, these pieces are scarce, keeping with a strong rare date Gold market.

Morgan Dollars continue to stay among the hottest areas of all. We see that solid supporting Bids are widespread among most dates and grades, from common to rare throughout the series. Increases are occurring for NGC late San Francisco Mint dates of the series. Also, key dates are headed higher as dealers look to fill a few hard to find examples for their customers. Check the action on dates such as 1892-S, 1893-CC and 1901. On the market side this week, some discounting is taking place but nothing out of the ordinary. Also, quickly changing Bid levels combined with an active market is taking its toll on some dealers who are not able to maximize their coin sales. We see quite a few unable to change their wholesale inventory price lists in time to capitalize on the market's increased Bids. Several **trades** are occurring **below** current **sight-unseen** Bid and can be found throughout this week's Market columns, represented by a 't' symbol. It may be worth it for some to add a person or two to their staff as the coin business continues to heat up.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the highest nationally reported sight unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels. www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" - Lowest asking price during the week prior to publication (*week* old); "**m**" - Lowest asking price during the previous three weeks (*month* old); "**t**" - *T*rade during the most recent month; "**lm**" - Lowest asking price appearing *last month*; "**lt**" *T*rade appearing *last* month; "**ot**" *T*rade older than 2 months; " " a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" - auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

NEED TO MAIL?

Save Money On Postage! We will Pre-Sort your Mailing Labels to get You the Best Rate

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections of the

2003 Numismatic Dealer Directory™

are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,000 current names and addresses. And **current** is a promise taken seriously - the data base is updated **daily**. All for only $325 - well below the mailing industry standard of $75/thousand.

To make this offer even more attractive, labels are available in both First Class order or Presorted for Basic Bulk Rate mailings (you can save more than $425 over First Class postage rates!). Need just one state or region? Need a trial sample? Contact us for details!

YES, I want to order mailing labels averaging 5,000+ names from the 2003 Numismatic Dealer Directory. I understand that my $325 fee entitles me to only one usage of these names. ______________________signature

My check for $325 payable to CDN, is enclosed.

CERTIFIED COIN DEALER newsletter

CCDN — a weekly report on the **Sight-Unseen** certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XVIII No. 44 October 31, 2003 Single copy price $4.00

An Explosion Of Higher Bids Hit The Market
CCDN Coin Market Index Breaks 800

The CCDN Coin Market Index has been steadily climbing since October 27, 2000 when it stood at 720.54. This week the CMI broke through the 800 point level to settle at 800.56; a level not seen since October 1990. This week alone the CMI jumped 2 full points. Nearly **ten percent** of the issues we cover are **higher** than last week. With this kind of activity it is easy for dealers to remain optimistic about the market and they expect this bullish trend to continue for the last two months of the year, and carry right on into 2004. Much of this optimism is also based on an ever increasing customer base. In the past when the market was struggling to gain any kind of momentum, rare coins would trade from dealer-to-dealer, at show after show, as well as, at auction after auction without finding a home. It was tough finding any serious buyers that would add these coins to his or her collection. My how times have changed. Today, we find the market invigorated with new collectors desiring to learn more about coins. These collectors are listening to the advice and experience of their dealers while building collections. These new buyers are doing pretty well financially and so they have what it takes to buy the key and better dates for their collections.

This demand, seen throughout much of 2003, has taken its toll on the availability of coins. Dealers are finding that they are unable to keep pace with the needs of their customers. They are trying to manage want lists that continually get more challenging for them to fulfill. The available supply of the better dates, semi-keys, coins with attractive surfaces and eye appeal has virtually disappeared. Dealers are doing their best to buy coins that they can offer to their well informed customers. They are looking for coins that may be undervalued or coins that are just available and reasonably priced. They don't want their customers to grow too impatient. This pent-up demand has, once again, forced dealers to increase their sight-unseen Bids for coins. This week NGC coins are receiving the bulk of **higher sight-unseen Bids** in a big way. Dealers believe that these coins are undervalued and so they aggressively entered the market hoping to buy while the buying is good. Value is out there and dealers are trying to capture it. Check out this week's explosion of plus signs covering Morgan Dollars, Proof Type, Mint State Type, Proof and Mint State Gold Type. This diverse group of coin market segments, including high dollar value coins, indicates that strong demand from serious buyers is in evidence today.

The Morgan Dollar Bid columns have over 400 plus signs, which equates to nearly 20% of the Morgan issues we cover that have moved higher. Dealers are not just targeting the common dates but rather the tough to find better dates of the series. They are increasing Bids for dates that are often found on want lists. Notice the heavy concentration of increases for collector grades MS63 thru MS66. You will also see that advances are occurring for far more than just the "CCs." Silver, Nickel and Gold Type are all areas that are extremely active and strong in Mint State and Proof. Type has attracted a lot of new collector/investors to the market in recent years. It is a more affordable way to collect coins while offering ownership of a greater number of designs and denominations. The strong increases in prices over the past few years has also made it a very profitable endeavor as well. Bust and Liberty Seated Type are receiving the strongest demand. Proof and Mint Gold Type are also hot, with dealers pushing up Bids for all Mint State and Proof Gold denominations and Types. Nearly 45% of the Mint State Gold Type we cover is up.

It is easy to overlook some areas this week as they take a back seat to the heaviest action. Just remember that rarities of all areas of the market are in demand and increasing in value. Also, we still see sellers letting coins go for levels that are below existing sight-unseen Bids.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the [illegible] nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks [illegible] Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels

Sight-Unseen Activity Reflects A Healthy Market Dealer Optimism Continues Unabated

The *CCDN* Coin Market Index has been in a long steady climb after nearly a decade without much change. Last week we mentioned that the CMI finally broke through the 800 mark and it is continuing to move higher. The last three years have been great for rare coins and it's amazing that there hasn't been any significant decline within that time. This is just another sign of a healthy market and it certainly gives significant credence to the belief of many dealers that say we are in an **extended** bull market cycle. Many of these optimistic dealers are of the opinion that this market will be getting a lot stronger before it has finished its run.

We begin November with activity that would suggest that the bull market is very much intact. After last week's large number of increasing Bids, one would expect the market to back-off somewhat with some profit taking. The shortage of coins in the rare coin market is very real and the strength and duration of the bull market is a reflection of the continued supply-demand imbalance. Rare coins are finding their way into very strong hands at an ever increasing pace. Many of these collector/investors refuse to sell even when offered substantial monetary gains. Dealers have patiently tried to buy the coins that they need to operate their business while maintaining a sufficient profit margin. They have to continuously buy coins in order to maintain their sales and to keep their customers interested. Today's collector/investor is much more knowledgeable than they were, even only five years ago. So it is imperative that the dealer is able to maintain an exciting and interesting inventory to offer his or her clients to stay successful.

Activity occurring in this week's sight-unseen market spells healthy all over the place. Yes, you don't see the same number of plus signs that appeared last week, but rest assured, dealers remain lined up ready to buy **sight-unseen** at current Bid levels. Several dealers are actively seeking to buy many of these coins at the current higher levels. This is a strong indication that demand is far from being satisfied. Morgan Dollars continue to lead the market and impress dealers. The collector base for this series is great, and the continued search for select rarities has helped keep Bids strong. A lot of this Morgan Dollar interest is seen in the mini GSA Dollar market. This area has blossomed in a big way with Bids increasing, sharply in some cases. We even notice that Peace Dollars are beginning to attract Bidders and plus signs. Silver Commemoratives are solid with plus signs chasing after select issues in virtually all grades. However, we do notice some discounting in this area of the market as well. It is mainly seen among Commems in high grades of MS65 and better. Increasing Bids are still targeting the $50 Pan-Pac Octagonal and Round Gold Commems. These coins are in heavy demand and there appears to be a very limited number available on the market. Mint State Type is strong at current levels. Bidding activity has picked-up for Proof Type. Dealers are looking for Liberty Seated coinage in all grades. Quarters are the hottest area at the moment. Proof Morgan and Trade Dollars are also participating. Proof Gold is up, with $20 Type II and Type III Liberties needed in most grades. MS65 is the grade of choice for Mint State Gold Type this week. We see $5 and $10 Indians higher as well as $5 Libs with Motto and Type I Double Eagles. Spot Gold has softened but the lower grade Type is still holding firm.

Some bids within represent very conservative sight–unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

The VAM 44 Discovery Coin!

In 1963, a young Berkeley engineering student encountered a revolutionary booklet, entitled *Morgan Dollar Varieties* by F.X. Klaes. In this small volume, a previously unknown 7/8TF "Doubled Leaves" variety was among the coins featured. And the rest is history!

The student was none other than Leroy Van Allen.
And the coin? It was the first VAM 44, the "King of VAMs."

And naturally, IT'S IN AN ICG HOLDER!

Contact James Taylor for an ICG dealer submission kit.

Morgans & Early Gold Type Boiling Diverse Market Strength Bodes Well For Future

Last week we wrote praises about the sight-unseen market while claiming it to be in excellent health. This week hasn't given us any reason to change that opinion at all. After discussing the market's condition with many knowledgeable dealers, we can only conclude that the rare coin market is excelling across the country. Some dealers are of the belief that the market is actually in the beginnings of a major bull market that may last for several years. There are many signs that are pointing in that direction beginning with the precious metals. Gold and Silver have generated a considerable amount of interest this past week. As of this writing, Gold has powered past $390 with many talking optimistically about its assault on the magic $400 per ounce level. Silver has also been actively pushing higher, now at $5.25 per ounce. Analysts believe the precious metals have finally broken through its prolonged bear market that has occurred for the better part of twenty years. We know that the rare coin market will only benefit from the added interest it will receive as a result. Other factors also give us reason to be optimistic. Dealers are excited by the better than expected attendance occurring around the country at the smaller, regional coin shows. One dealer said that he was pleasantly surprised by the number of people showing interest in rare coins at the early November Bay State show in Winchester, MA. There is more evidence that today's collectors are demonstrating a strong demand for a diverse group of coins. The scope of today's demand has definitely expanded. This is why we see Bids posted for many series and areas of the coin market. Dealers are looking to buy common as well as the rare dates. They are buying early, middle and Modern coinage. They are buying low grade and high grade and everything in between that's available. We will see if this momentum continues at the Santa Clara Expo that is to be held November 21-23 in California.

This week the sight-unseen market has been extremely active with dealers posting a myriad of increased Bids. It is important to point out that plus signs are appearing in nearly all segments of the market. A **huge** number of plus signs adorn our Morgan Dollar columns. We know that this series is extremely popular and it has turned in a solid performance for 2003. However, it's obvious by this week's changes that demand remains unsatisfied and there are more customers still waiting to buy Dollars. Strength is seen throughout the entire series in any condition, including: Mint State, Proof, Prooflike and Deep Mirror Prooflike. Dealers are looking to buy everything from common dates in low grade to five-figure rarities. We even see some increases taking place among the Peace Dollars. Early Gold Type is running a close second to the Morgan Dollar series. A very high percentage of the series is covered with plus signs. Dealers are actively looking to buy early Gold Type from AU58 and higher. They want all denominations as they have interested buyers waiting for these rarities. Mint State and Proof Type are solid as well. Increases are appearing in both areas of the market. Dealers tell us that many Type collectors continue to be pleased with their coin buys and some are continually looking to upgrade their sets. This week's Mint State interest is forcing some plus signs for issues ranging from 3¢ Silvers to Trade Dollars. Proof Type is higher with Barber coinage and Morgan Dollars in command. Silver Commemoratives are selectively in demand. Dealers have pushed Bid for several issues in several grades. Many collectors working on sets are satisfied with examples that range in grade from MS63 thru MS66. Mint State Gold and Proof Gold are solid as well. Dealers have many customers interested in acquiring Gold coins; from bullion related examples to rare date Gold. Still, many are happy with just improving their Type Gold sets. Some higher sight-unseen Bids are also seen within the Buffalo Nickel, Mercury Dime and Walking Liberty Half Dollar series. We even note that a few select Proof Singles are advancing as well. Again, strong diverse demand is most prevalently being displayed this week.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels. *www.cdnpublications.com*

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

“The Absolute Fairest Prices Possible!”

“I wanted to thank you once again for all of your hard work in getting me the absolute fairest prices possible for my coins. Your integrity renewed my hopes for the numismatist field. I would not hesitate to refer anyone to you: in fact, I would most certainly encourage them! I hope you and your family have a wonderful weekend. With gratitude and respect.”

This unsolicited testimonial is just one example of why those "in the know" go to **Spectrum Numismatics** to buy and sell their coins! We buy millions and millions (and millions!) of dollars worth of coins each year from collectors and dealers. Obviously, they’re going where they can get the best deal for their coins, and that’s why they choose **Spectrum Numismatics**. So should you!

Our customers are bringing us coins in record numbers because they know they’re dealing with world-class rare coin experts with unlimited financial resources. Because they know they’ll be treated fairly and courteously. Because they know we have other customers waiting for their coins in all ranges of the price spectrum. Because they know they’ll always receive same-day payment. Collectors, investors, dealers, and financial institutions alike know the **Spectrum** secret, and now so do you. If you’re interested in selling some or all of your rare coin holdings, why would you want to go anywhere else?

The principal buyers at **Spectrum** have over 200 years of combined numismatic experience. Our buyers are seasoned veterans in all areas of numismatics, and they know what your coins are worth. Is your collection a specialized selection of 18th century rarities? A large holding of modern proof coins? An estate that was left to you by a loved one? An accumulation that has been in the family for years? A dealer inventory? Rare coin properties come in hundreds of different forms, and **Spectrum** is interested in purchasing then all!

Dealing with Spectrum is always fast, confidential and convenient as you need it to be. We can travel to see you, meet you at our offices, or make an appointment with you for the next coin show in your area. We can also do the entire transaction by mail, as we do hundreds of times each year.

Selling your coins to **Spectrum Numismatics** is as easy as one, two, three. In fact, it’s even easier than that. Just give us a call, drop us a line or send us an e-mail at DaleSpec@aol.com or JBrushSpectrum@aol.com We’ll take care of the rest. Do it today!

HOW TO MAKE MONEY IN COINS RIGHT NOW, 2ND EDITION

by SCOTT A. TRAVERS

"Don't go to a coin dealer without reading this book first."
– Hank Gilman, Business Editor, ***NEWSWEEK***

"If making money by buying and selling coins is your game, Scott Travers' ***How to Make Money in Coins Right Now*** is a must-read. As an insider, he puts you on the playing field with the pros. Chapter by chapter, he reveals strategies for being a winner."
– Beth Deisher, Editor, ***Coin World***

"The most valuable book ever written on how to profit from coins."
– Ed Reiter, Senior Editor, ***COINage*** magazine

"A revolutionary book."
– Armen R. Vartian, Legal Counsel, **Professional Numismatists Guild**

"A no-holds barred examination of insider secrets that can be used for startling, quick profits. Stands alone as the most penetrating guide of its kind ever published."
– Maurice Rosen, **Rosen Numismatic Advisory**

Ultimate insider Scott Travers shows you the tricks of the trade with clear examples of how you, too, can outsmart the grading services. You'll get information never revealed before from experts who have handled hundreds of millions of dollars worth of rare coins. Here are just some of the many topics covered:

Garrett & Hamrick Ventures wants to purchase your rare coins. Recently, Jeff Garrett and John Hamrick formed a joint venture to assist a multi-million dollar rare coin fund in locating and purchasing individual rare coins, large collections, and hoards. At Garrett & Hamrick Ventures we understand what a difficult decision selling your rare coin(s) is. It seems as though everyone is promising to pay you the most, but it is hard to determine your best option. Today's rare coin market is very complex and getting the highest prices for your coins requires someone who can assist you with research, grading, and pricing. It is for this reason that Knowledge is the foundation of our approach to buying rare coins.

Jeff Garrett is the co-author of Significant Auction Records of United States Coins (a mammoth 3 volume reference work) and 100 Greatest United States Coins. Jeff Garrett was also one of the original coin graders for Professional Coin Grading Service.
John Hamrick was the founder of World-Wide Coin Investments, Ltd, which was one of the first publicly traded rare coin companies in the nation. He has bought and sold most of the classic U.S. Coin rarities such as the 1804 Bust Dollar, 1894-S Barber Dime and the 1913 Liberty Nickel. In addition John Hamrick has been one of the country's leading rare coin retailers for over 30 years and is constantly in touch with today's ever-changing market conditions and prices. Together Garrett and Hamrick have handled nearly every United States coin listed in the Redbook!

If you have coins to sell we will do everything in our power to make sure you receive top dollar for your numismatic items.

Call today to participate in the hottest rare coin market in years!!!

$20 Saints Marching Higher

Early December NYC Auctions On Tap

The health of the sight-unseen market has been exceptional in 2003, and it looks as if nothing could possibly happen to change this opinion before year's end. Dealers have been very happy with current market conditions and they have even accepted the difficulties involved with finding select coins for their customers. Sight-Unseen Bids tendered in the middle to late portion of November are as strong as we have seen all year. This, coupled with the market's immunity to severe downturns and profit taking is indicative of an extremely bullish market. The lack of supply has been the battle cry of dealers throughout the year because they haven't been able to buy all the rare coins that they need. Demand keeps growing with a customer base that's ever expanding which is certainly exacerbating the supply situation. Dealers reinforce this notion when they report that they are regularly adding new customers to their client lists. It is also important to understand that public auctions, taking place more frequently, have continued to feed the market's thirst for coins in a big way. Public auction companies continue to put thousands of lots per sale on the market and the number of public auction companies is growing. It may seem reasonable to expect that this large number of lots translating into a large dollar amount placed on the market at any given time would immediately put heavy pressure on today's strong price levels. Indeed we do see some discounting taking place, but it is only a minor disruption to the strength that marks this bull market. Instead, we see a market that is able to **absorb** this material at strong levels, with some dealers willing to post even stronger Bids to get the inventory that they still need. Disgruntled investors have flocked to rare coins as an alternative choice for their money, especially in light of the relatively low interest rates being offered in today's money markets. Rare coins are catching on and many feel the ride has just begun.

While several busy coin shows are occurring around the country at this time, dealers attending the Expo in Santa Clara, California report brisk activity. $20 Saint-Gaudens and Morgan Dollars appear to be among the hottest areas judging by this week's strong sight-unseen Bidding for these two popular series. The sheer number of higher Bids, along with the high percentage increases above the previously listed sight-unseen Bids for Saints, is astounding. We aren't just talking about $500 to $1,500 coins, but check the number of strong Bids for 4- and 5-figure rarities as well. It's growing more and more obvious that today's demand is coming from collector/investors that have strong financial positions that are willing to pay for quality and rarity. Morgan Dollars continues to amaze analysts by realizing increasing Bids nearly every week. The increases seen this time are, like the Saints, for coins that are among the upper echelon of the series. Dealers tell us that many collectors are working on high-powered sets and these dates are tough to find today, given the extreme marketplace shortage of key and semi-key dates. Dates like the 1879-CC, 1879-CC Capped Die, 1880-CC Reverse '78, 1883-S, 1886-O, 1887/6-O, 1892-S, 1893-O, 1893-S and 1903-S are some of the major rarities that have advanced this week.

Demand will get yet another chance to be satisfied December 1st when the Classics Sale will be auctioned in New York City by American Numismatic Rarities. On December 2-3 in New York City, a public auction of U.S. Gold, Silver and Copper Coins by Stack's will also take place. We listed a few of the many certified highlights from both sales.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels. *www.cdnpublications.com*

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Got Spots?

Copper spots, carbon spots and other surface contaminants not only negatively affect eye appeal and marketability of coins, they can also become more severe over time.

NCS, the #1 authority in professional numismatic conservation, can remedy this problem while protecting the underlying original surfaces of the coin.

NCS has developed advanced techniques for addressing most forms of contamination without the use of abrasive, high risk, or potentially damaging methods.

Don't risk letting an unsightly spot turn into active corrosion or an improper effort to remove it result in a "problem coin".

Garrett&Hamrick VENTURES

Garrett & Hamrick Ventures wants to purchase your rare coins. Recently, Jeff Garrett and John Hamrick formed a joint venture to assist a multi-million dollar rare coin fund in locating and purchasing individual rare coins, large collections, and hoards. At Garrett & Hamrick Ventures we understand what a difficult decision selling your rare coin(s) is. It seems as though everyone is promising to pay you the most, but it is hard to determine your best option. Today's rare coin market is very complex and getting the highest prices for your coins requires someone who can assist you with research, grading, and pricing. It is for this reason that Knowledge is the foundation of our approach to buying rare coins.

Jeff Garrett is the co-author of Significant Auction Records of United States Coins (a mammoth 3 volume reference work) and 100 Greatest United States Coins. Jeff Garrett was also one of the original coin graders for Professional Coin Grading Service. John Hamrick was the founder of World-Wide Coin Investments, Ltd, which was one of the first publicly traded rare coin companies in the nation. He has bought and sold most of the classic U.S. Coin rarities such as the 1804 Bust Dollar, 1894-S Barber Dime and the 1913 Liberty Nickel. In addition John Hamrick has been one of the country's leading rare coin retailers for over 30 years and is constantly in touch with today's ever-changing market conditions and prices. Together Garrett and Hamrick have handled nearly every United States coin listed in the Redbook!

If you have coins to sell we will do everything in our power to make sure you receive top dollar for your numismatic items.

Call today to participate in the hottest rare coin market in years!!!

1927-D Saint Claims More Than $1 Million Next Stop: Baltimore

We conclude the month of November with most dealers continuing to feel very optimistic about the direction of the market and its activity level. They got an important dose of this activity level at the recently completed Santa Clara Expo. Most dealers that traveled west from the east coast, midwest and southern portion of our nation were happy because they had successful shows. Several said that the attendance was more than they had expected. They also were pleasantly surprised by the brisk pace of the show with trades regularly taking place on the bourse. Indeed, the show got off to powerful start with a rare $20 Saint-Gaudens changing hands for more than $1 million on the first day. The private transaction was from Rare Coin Alliance to an anonymous buyer. The million dollar coin is a 1927-D $20 Saint-Gaudens graded MS66 by PCGS. This is certainly one of the keys to building a set of Saints. Million dollar transaction aside, dealers are still quick to point out that the current bull market is not one that they would consider to be on fire. Yet, they do say that prices are still increasing and demand is solid at current levels. So, dealers are leaving Santa Clara and heading to Baltimore hoping that the east coast show will prove to be as successful as they experienced in California. The Baltimore Coin & Currency Convention will be held December 5-7 in Maryland with the dealer's "super bourse" on the 4th. This is usually an active show due to its proximity to large segments of the population. Also it is considered to be an extremely collector rich part of the country. Overall, dealers have high expectations for this show and public auction to be held in conjunction with it. The John F. Rindge & Alan J. Harlan Collections will be auctioned by Bowers and Merena and we have listed a few of the many certified highlights from that December 4-6 sale.

In breaking coin news, it has just been announced that PCGS will conduct the PCGS World Series of Rare Coin Grading competition to begin at the Florida United Numismatists show in January. The contest will culminate at the 2004 summer ANA convention with cash prizes totaling $10,000. A $50 entry fee and reservation are required to take the test at one of the four qualifying rounds.

This week's sight-unseen market is posting the kinds of Bids that prove the dealers' point when it comes to the market being strong but not on fire. We see that several dealers are Bidding at, or just below current levels with fewer increases than we have seen lately. Of course, there are areas of the market that are continuing to experience increased Bids. These areas of the market, like Morgan Dollars have been strong for quite some time. Also, there is discounting occurring but this is only some minor weakness that is found sporadically scattered throughout our pages. The majority of the plus signs this week are to be found at the end of the Morgan Dollar series with both NGC and PCGS examples heading higher. The dates from 1899 thru 1904-S are quite active with demand strong for the power coins in the high grades. Note the movement of the New Orleans and San Francisco Mint semi-keys as well as the increase for the key, 1901. Besides the better dates, we do point out that generics have registered slight advances in grades MS65 and MS66. Feverish demand continues to push the $50 Pan-Pacific Octagonal to higher ground. This week sports increases in grades MS63 and MS64 for both NGC and PCGS examples.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

MARKET LISTINGS

MARKET columns reflect the latest dealer–to–dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales–related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" Lowest asking price during the *w*eek prior to publication (week old); "**m**" Lowest asking price during the previous three weeks (*m*onth old); "**t**" *T*rade during the most recent month; "**lm**" Lowest asking price appearing *l*ast *m*onth; "**lt**" *T*rade appearing *l*ast month; "**ot**" *T*rade *o*lder than 2 months; " " a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight–unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

December Is Golden Baltimore Show Busy On Set-Up

The rare coin bull market is in full force as December begins. The last month of the year may have been saving a special gift for the market — $400 per ounce Gold! The east coast is entertaining many dealers and keeping them pretty busy as two December auctions have already concluded with a third, the Bowers and Merena sale now in progress. Dealers say that the activity level of the market is rather hectic with many trying to buy rare coins. There have been more buyers than sellers for quite some time now. The supply/demand imbalance is still very much in evidence as we begin December. Most dealers are already in Maryland attending the Baltimore Coin & Currency Convention. The few dealers that we spoke with said that activity seemed to be the rule with transactions regularly taking place during dealer set-up. Again, dealers on the bourse tell us that more are looking to buy coins than those that looking to sell. Demand is evident for choice examples of any date and denomination. One dealer said that people are out there looking to buy anything from "soup to nuts." In any event, the initial reports are that of an upbeat show with interest keen for nice Type and Gold.

Gold bullion has eclipsed $400 and it appears to be holding above that key benchmark. It is believed that $400 Gold will translate into greater interest for common date coins as well as for rare dates. One prominent east coast dealer commented that the market is currently "very strong." He knows that the rise in Gold has given an added boost to the market. He did point out that premiums on common date Gold have not expanded as rapidly as did the Gold price. He expects premiums to move up as more buyers become interested in holding some common date generic Gold. In this department the general marketplace for buyers is from AU thru MS63 quality. Clients usually come in two forms, panic buyers and those that say that they would like to put away a few coins for their children. These buyers do so out of concern as they look for alternatives for placing some of their money. They know that the value of the dollar has been declining on world markets and they would like some financial insurance. He also noted that higher grade Gold denominations are facing very strong demand right now. Note the large number of increasing sight-unseen Bids within our Mint State Gold Type columns. Demand is forcing prices higher for a wide range of Gold coins. Increases are seen this week for Gold Dollars, $5 and $10 Liberty, $3 Gold and all Double Eagles.

The overall sight-unseen market is sound. Morgan Dollars are continuing their assault with Bids slightly higher and in some cases, more substantially. Mint State and Proof Type are among the demand leaders today and supporting Bids are found all over our Type sheets. Most of the popular series are doing well with Bidders content to pay current levels and higher in an effort to acquire stock. The large quantity of Classic Silver Commemoratives to hit the auction block recently may have been too much for the market to absorb. Several examples have traded for well below current sight-unseen Bid. Early New York City auction results include the $4 million Classics Sale by American Numismatic Rarities (ANR) on December 1. Stack's followed with a $1.7 million public auction December 2-3. We have listed a few of the certified highlights from each sale.

The VAM 44 Discovery Coin!

In 1963, a young Berkeley engineering student encountered a revolutionary booklet, entitled *Morgan Dollar Varieties* by F.X. Klaes. In this small volume, a previously unknown 7/8TF "Doubled Leaves" variety was among the coins featured. And the rest is history!

The student was none other than Leroy Van Allen.
And the coin? It was the first VAM 44, the "King of VAMs."

And naturally, IT'S IN AN ICG HOLDER!

Contact James Taylor for an ICG dealer submission kit.

Early Gold Comes Alive
Generic Morgans: MS66 $222, MS67 $710

For most dealers, this year's holiday season will be extra special. It has been a banner year for rare coins and the outlook for 2004 couldn't be better. It's easy for dealers to feel optimistic about the market's future because of many reasons. With bank interest rates only around one percent, it is hardly worth tying up one's money. In turn, borrowing money is much less expensive than it has ever been, giving those individuals so inclined to buy coins, a greater degree of confidence. Besides the low interest rates, the stock market's poor performance in the past few years has caused investors to look elsewhere and add diversity to their portfolios. As investors ponder the question of what to buy, rare coins have become one of the possibilities. Precious metals have been extremely active recently with Gold, Silver and Platinum bullion trading at or near their highs for the year. The bull market in the precious metals gives dealers just another reason to smile. That's because the forces and economic conditions that are necessary to foster higher bullion prices usually do the same for rare coins. It also stimulates interest from investors who have never owned any rare coins. Gold has broken thru $400 and many believe it is headed higher. Of course the volatile nature of this precious metal means that anything is still possible. Silver has also made great advances this year and all this information is good news for the rare coin market. These optimistic sentiments are being expressed by dealers returning home from a successful trip to New York and Baltimore. The Baltimore Coin & Currency Convention, along with the early December auctions gave many dealers their last opportunity to buy coins before the new year. Most dealers were looking to buy, and the few that had coins to sell said it was a task that was easy and profitable. Gold was the hot commodity at the show and also at the public auctions. At the show, Saints were in demand and were able to command strong Bids from dealers. Rare date Saints are especially strong, with dealers trying to fill want lists from serious collector/investors. Early Gold is on fire! Interest for these rarities is running very high. Dealers are increasing their Bid, **sight-unseen**, for many Types and denominations of early Gold. Increases are evident in all grades. So there must be a lot of money on the sidelines waiting to buy. Check out the increases on Supplemental Page E. One rare date Gold specialist said that C, D and O Mint Liberties are also highly sought-after today. Honorable mention was given to $3 Gold, currently facing heavy demand. Silver is also strong, namely Silver Dollars. Dealers have regularly increased Bid trying to buy the select dates that they need for their customers. Morgan Dollars take the largest portion of the Dollar demand with Flowing Hair and Bust Dollars also being hot items. DMPL and Prooflike Morgans are increasing as a result of sustained demand. Generic Morgans are also surprisingly strong. Check the jump Bids for NGC and PCGS Morgans in MS66 and MS67 this week. Supporting sight-unseen Bids are found all over our Mint State and Proof Type pages representing continued collector interest in those areas. Plus signs are also evident among Gold Commems this week. Gold Commems had been sluggish in recent months, but it looks as if they hit a level that dealers can't ignore. We have listed a few of the many certified highlights from the Bowers and Merena auction held in Baltimore December 4-6. The sale totaled $3.9 million.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels. *www.cdnpublications.com*

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Some bids within represent very conservative sight–unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

The Coin Collector's Survival Manual™ – Revised Fourth Edition

by Scott A. Travers

BEFORE YOU MAKE YOUR NEXT COIN PURCHASE, TAKE A COMPLETE COURSE IN COIN BUYING AND SELLING FOR AS LITTLE AS $19.95.

"This is the book about the coin business you can't afford to be without." - ***NEWSWEEK***
"One of the most important coin books ever written." -***The New York Times***
"Should be read before a single coin is bought - and read again and again!" -***Coin World***

UNPRECEDENTED SIX-TIME NUMISMATIC LITERARY GUILD AWARD WINNER

Traditionally, learning a lesson in the rare coin market has been very expensive. You would buy a coin for $500, find out later that it was worth only $50, and, thus, you would have to pay $450 to learn just one lesson. But now, thanks to the revised fourth edition of *The Coin Collector's Survival Manual™*, by Scott A. Travers, you no longer have to pay a fortune to learn about how to buy and sell coins profitably.

This thoroughly revised edition examines the coin field from an insider's perspective and continues to break new ground in revealing the ins and outs of coin collecting and investing. Excellent photographs and detailed charts amplify the encyclopedic, clearly written, meticulously organized text. You'll learn about the following:

- How to look at coins the way the professionals do
- **How to determine what a coin is worth and what grade the leading certification services would assign to it**
- How to spot slight friction on otherwise "Gem" coins
- How to tell the difference between proof and prooflike
- **How lighting affects appearance—and the latest in halogen flashlights**
- Altered and counterfeit detection techniques
- How to judge price guide accuracy
- Selecting and testing a coin dealer
- **How not to get ripped off if you buy coins through the mail or over the Internet — courageous information**
- Profitable - and not-so-profitable - liquidation techniques
- **How to buy and sell at conventions like the pros do**
- How to spot a cleaned and artificially toned coin
- **A comparison of PCGS versus NGC — which service does the market really favor?**
- Stunning exposé and bombshell interview on coin "doctoring"
- **Special full-color section on artificially toned and doctored coins**

SPECIAL SECTIONS ON:

- **Doctored coins, how to detect them, and the case of the doctored hoard of gold rarities that got slabbed**
- The real truth about slab services "fixed grading standard" claims and premium quality coins
- Revelations from a leading coin trader
- **A grading service founder's startling admission of modified grading standards**
- The newest tax laws

CONTAINS ALL-NEW INFORMATION ON:

- **Gold coins as an economic safe haven**
- Coin conservation services
- **Coin insurance and safekeeping in light of September 11, 2001**
- The latest Internet strategies
- **Digital photography pointers**

and much, much more!

Garrett&Hamrick
VENTURES

Garrett & Hamrick Ventures wants to purchase your rare coins. Recently, Jeff Garrett and John Hamrick formed a joint venture to assist a multi-million dollar rare coin fund in locating and purchasing individual rare coins, large collections, and hoards. At Garrett & Hamrick Ventures we understand what a difficult decision selling your rare coin(s) is. It seems as though everyone is promising to pay you the most, but it is hard to determine your best option. Today's rare coin market is very complex and getting the highest prices for your coins requires someone who can assist you with research, grading, and pricing. It is for this reason that Knowledge is the foundation of our approach to buying rare coins.

Jeff Garrett is the co-author of Significant Auction Records of United States Coins (a mammoth 3 volume reference work) and 100 Greatest United States Coins. Jeff Garrett was also one of the original coin graders for Professional Coin Grading Service. John Hamrick was the founder of World-Wide Coin Investments, Ltd, which was one of the first publicly traded rare coin companies in the nation. He has bought and sold most of the classic U.S. Coin rarities such as the 1804 Bust Dollar, 1894-S Barber Dime and the 1913 Liberty Nickel. In addition John Hamrick has been one of the country's leading rare coin retailers for over 30 years and is constantly in touch with today's ever-changing market conditions and prices. Together Garrett and Hamrick have handled nearly every United States coin listed in the Redbook!

If you have coins to sell we will do everything in our power to make sure you receive top dollar for your numismatic items.

Call today to participate in the hottest rare coin market in years!!!

WE OFFER THE FOLLOWING SERVICES:

Gold Excels In 2003!
Last Issue For The Year — Happy Holidays

The story for this December is the same as it has been for the entire year. Bullish! Dealers are very encouraged as we close out 2003 because the rare coin market is maintaining the same pace that it started out with in January. Demand for coins is strong and growing. Dealers know that the collector base continues to expand just by examining their own businesses. They still have many outstanding orders just waiting to be filled. Gold has certainly been a big help to the market, if not a catalyst. Those dealers who specialize in Gold coins, both rare and common, have been extremely busy of late. That's because Gold bullion has continued to impress the analysts, even pushing briefly above the $410 per ounce level. Since the $400 per ounce threshold was breached, we know that more and more people have awakened to the precious metal, and also rare coins. Dealers say that a combination of factors have contributed to the very strong demand that we see today. "It's a broad-based demand" with collectors and collector/investors trying to buy anything that is Gold. Dealers are experiencing demand for Type issues in all denominations, from Type I $1 Gold thru $20 Double Eagles. All grades are participating, from Very Fine thru Superb Gem BU. People are buying Gold by Type, date and by denomination. We know that the Gold coin portion of the market encompasses a wide range of collectible pursuits and the strong demand for all these segments is a testament to its appeal. Many well-heeled collector/investors are trying to buy **early** Gold and **Proof** Gold. We have seen Bids in this sector of the market strengthen considerably in November and December. These buyers have enough money to buy the coins they want and take them off the market for many years. Dealers are left with no choice but to increase their Bid if they are to stay competitive and successful in acquiring more of this material. And that is exactly what has been happening as **sight-unseen** Bids are being pushed to ever higher levels.

Proof Gold is beginning to build the same steam that has been driving early Gold. However, dealers also say that much of the Proof Gold that had been available earlier in the year has practically dried up. Rare date Liberty and Indian Gold are also the object of strong demand. Buyers are carefully adding nice, interesting examples to their portfolios. We have been told that they aren't shy when it comes to paying strong money for them. Gold Commemoratives are also joining the party. Check out some of the gains this week. Modern Gold has benefited as well, with dealers specializing in this area finding the buying to also be difficult. Bullion related American Eagles and other bullion coins are being accumulated for a lot of the same reasons. It all points to a golden kick-off for the 2004 rare coin market. These are the opinions that we have been regularly receiving from dealers. Many dealers will be taking these sentiments with them to the Florida United Numismatists show in Orlando January 8-11, 2004. Prior to the show, Superior will conduct a Pre-FUN Orlando auction on January 6. We have listed a few of the many certified highlights.

SUPERIOR PRE-FUN HIGHLIGHTS

Many areas besides Gold are also doing quite well. Strong sight-unseen Bids continue to move higher for common date Morgan Dollars. Increases have been occurring in grades MS63 thru MS67 and also include increases for PL and DMPL examples as well. Since January, generic Morgans are up: 12% in MS63, 17% in MS64, 25% in MS65, 46% in MS66 and 44% in MS67. Better date Morgans have also been very strong, and although the Carson City issues have slowed somewhat, we still see increases in that popular area. Scarce key and semi-key Morgans remain the object of dealer's Bidding each week. Buffalo Nickels, Proof Walking Liberty Half Dollars and Silver Commems are all being sought-after by dealers.

This is the last issue of the *Certified Coin Dealer Newsletter* for 2003. We hope that all of you and your families have a happy and healthy holiday season. The next *CCDN* will be published on January 2, 2004.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels. www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Discover NGC's Unparalleled Approach to Service.

NGC offers the numismatic community a truly rare commitment. Our best-in-class services, industry-leading experts and a customer-focused approach give dealers and collectors alike a comprehensive grading services partner.

The Finest Services

NGC's comprehensive offering means that you have access to the numismatic services you need to make the most of your collection. From our expert grading and industry-leading holder to our comprehensive registry, our services are designed to help fulfill your passion for the hobby. Plus, we offer unparalleled conservation services through our exclusive partnership with Numismatic Conservation Services (NCS).

The Leading Experts

The diverse numismatic backgrounds and unchallenged experience of our graders combine with our uncompromising standards of integrity and objectivity to make NGC the most respected grading service in the industry. NGC graders are prohibited from buying or selling coins, therefore guaranteeing impartiality. This is one of the main reasons we are the only grading service ever endorsed by the ANA, America's only official coin collecting organization chartered by Congress.

The Right Approach

NGC is the only grading service that provides dealers and collectors with a seamless source for having coins conserved if necessary, graded and registered. We also offer the industry's strongest guarantee, giving our customers complete confidence in the grade and authenticity of their NGC graded coins.
